These operations shall be conducted before the actual sowing operations are taken up.

ii) (a) In Kher and Khazan lands (not subject to saline water inundation) and where cultivation of paddy is undertaken by 'Xelli' methods, the fields shall be ploughed immediately after the harvest of the previous crop and the side bunds shall be strengthened before the actual sowing of the crop is taken up.

In case of Khazan lands marginal to river banks and subject to inundation of saline water, preliminaries of cultivation such as ploughing or digging, desilting of drains, maintenance and repairs to the protective bunds, shall be completed, latest by the end of May to ensure better de-salinization of field with the first monsoon showers and to prevent wind and water erosion.

In case of morod lands, the proper tillage shall be initiated as soon as the monsoon sets in i.e. within 15 days from the date of onset of monsoon, so as to prevent any excess of water to be lost by surface run-off.

The puddling operation shall be carried out when paddy is sown by 'row' (germinated seeds) method or by transplanted crop method:

(b) For other seasonal crops such as vegetables, pulses oil-seeds etc. the land shall be ploughed soon after the harvest of the previous crop when there is moisture in the soil, so as to ensure a fine tilth required for a good seed bed.

However, the minimum number of ploughing and harrowings, to be attained before sowing of any of the above crops, shall not less than three.

iii) The directive stipulated in item (ii) above shall invariably be adopted to eradicate weeds and shrubs. However, in low lying areas where humidity prevails removal of weeds shall be under taken either by hand picking (manual labour) or by application of weedicides in consultation with the Zonal Agricultural Officer of the respective area.

iv) (a) **For paddy**— Depending upon the nature of topography of the soil, the following varieties of crops of such other varieties as may be recommended by the Directorate of Agriculture as may be recommended by the Directorate of Agriculture from time to time, shall be raised namely:—

1) In 'morod' and Kher areas with limited supply or irrigation facilities-short duration crop.

2) In Kher areas with adequate water facilities and low-lying areas medium and long duration crop;

3) Tank bed areas sown during kharif season short duration crop;

4) In low lying areas subjected to prolonged flood— flood resistant variety;

5) Saline areas — salt resistant varieties.

b) **For seasonal crops**— For other seasonal crops, such as vegetables, oilseeds and pulses, any variety suitable for a particular area shall be raised, depending upon the season, availability of reserves and irrigation facilities.

v) Seeds shall necessarily be treated before sowing by using such organic mercurial compounds as may be recommended by the Directorate of Agriculture.

vi) Dates for closing and opening of bandharas, tanks and weirs shall be earmarked in consultation with the Zonal Agricultural Officer of the area. The above operation

shall be undertaken under the supervision of a person nominated by the Village Panchayat of the area.

vii) The drainage and irrigation channels shall be maintained in good condition well in advance of the cropping season i.e. by the end of April for Kharif crop and by the end of October for Rabi crop; the above activity shall be accomplished under the supervision of the Rural Engineer of the area.

viii) The beds and channels, rivulets, rivers etc. shall in no case, be used for cultivation purposes to avoid silting of water course and obstruction to free flow of water.

ix) Only shallow rooted crops as may be recommended by the Directorate of Agriculture shall be allowed to be raised on bunds, embankments, during kharif season and after the harvest of the crop the stubbles shall be covered by a layer of clay known as 'thor' and 'hupto' which will strengthen the bund.

Panjim, 22nd May, 1964.

[Published in the Government Gazette (Supplement), Series I, No. 21 dated 22-5-1964].

ORDER

Whereas the tenants of paddy fields belonging to the Comunidades which were leased at the time when the last public auction of the fields of Comunidade took place for the current period of six years had, by virtue of article 294 clause 6 of the "Codigo das Comunidades" a preferential right to such paddy fields.

And whereas such right was lost to some tenants because of undue increase in rent.

And whereas the right of the direct cultivator who has tilled the land for three successive years immediately preceding the said auction must be protected.

An whereas by the Order No. GAD/74/62/13598 dated 12th September, 1962 the rent of the paddy fields was fixed at half the value of the produce of the paddy field as per the respective assessment (calculo).

1. The option referred to in para 6 of article 294 of the "Codigo das Comunidades" may be exercised in relation to the plots leased under the said article 294, within the period of 45 days from the date of the publication of this Order.

The Lieutenant Governor,

T. Sivasankar.

Panjim, 5th March, 1963.

(Published in the Government Gazette, Series I No. 11 dated 14-3-1963).

ORDER

Whereas by the Order dated the 5th March, 1963, published in the Government Gazette, Series I dated the 14th March, 1963, persons who were in the tenancy of the paddy fields belonging to Comunidades were given preferential right (direito de opção) under article 294 of the "Codigo das Comunidades" in respect of the paddy fields of

which they were the tenants and whereas the exercise of the rights given under the said Order dated the 5th March, 1963 will operate harshly against the present lease holders who have no other land under their cultivation and who were cultivating the lands presently under their tenancy, in previous years for a longer period than the persons cultivating them in the year mentioned as "last year" in the said article 294. Now therefore, in exercise of powers conferred by the Goa, Daman and Diu (Administration) Removal of Difficulties Order, 1962 I hereby order that the following proviso shall be added to clause 1 of the said Order dated the 5th March, 1963 published in the Government Gazette dated 14th March, 1963.

(a) This order shall be called the Protection of Rights of Tenants (Cashewnuts and Arecanuts) Order, 1965.

(b) It shall come into force at once.

2. In this order, unless the context otherwise requires, "tenant" shall have the same meaning as in the Goa, Daman and Diu Agricultural Tenancy Act, 1964 as if that definition applied to persons holding a lease of arecanut or cashewnut gardens and "landlord" shall be construed accordingly.

3. (1) Notwithstanding any contract or agreement to the contrary, the tenancy of any person in respect of any arecanut or cashewnut garden shall not be terminated by the landlord, save as provided in sub-paragraph (2).

Circular

A question has arisen as to whether a tenant who is the deemed owner of land under the Goa, Daman and Diu Agricultural Tenancy Act, 1964 (Act 7 of 1964), can revert the land back to the original landlord.

The matter has been examined and it is hereby advised that under no circumstances can a tenant who is the deemed owner of the land under the Act, 1964 revert the land back to the landlord but the land shall be disposed off in the manner provided in sub-section (2) of section 18 J of the said Act, 1964 in circumstances specified in sub-section (1) of said section 18 J of the Act, 1964. Hence, a compromise decree leading to deletion of the name of the tenant from Forms I & XIV is inconsistent with the provisions of law. Moreover, by virtue of section 2 of the Goa Land Use (Regulation) Act, 1991 (Act 3 of 1991), no land which is vested in a tenant under the provisions of the Goa, Daman and Diu Agricultural Tenancy Act, 1964 (Act 7 of 1964) shall be used or allowed to be used for any purpose other than agriculture.

The above information is circulated for guidance when considering any proposals for reversion of land to the original landlord by the tenants.
